BZH LISTED NYSE

Standard options and features lists as well as depictions of floor plans and elevations (each, a "Standard") are expressly not made part of any Purchase and Sale Agreement ("PSA"), nor do they give rise to any contractual relationship between you and Beazer Homes. Standards are intended only to provide a general overview. You may purchase an upgrade or, in its sole discretion, Beazer may substitute an alternative as provided in the PSA. The PSA's Addendum A will define what is included in your home. If you sign a Standard, it is simply your acknowledgment of receipt of the Standards applicable to this model of home. Construction specifications include moisture and mold control, radon resistant construction (where applicable), pest barriers, effective heating, ventilating and air-conditioning systems, safe combustion, and healthier building materials. Please visit www.epa.gov/indoorairplus for details. Beazer reserves the right to make changes without notice or obligation to plans, elevations and pricing. Illustrations and specifications are believed correct at time of publication, and are not intended to create any warranty or contract rights. *HERS stands for Home Energy Rating System. It's a standardized system used to measure a home's energy efficiency. A lower HERS score indicates a more energy-efficient home. HERS is like a home's MPG label. A lower HERS score means lower energy bills and a smaller environmental footprint. Our average gross HERS score in 2023 was 42. To confirm our position as the #1 energy efficient homebuilder in the US, we looked at the publicly reported average HERS scores during June 2025 for each of the top 30 homebuilders in the US (based on how many houses they sold in 2024) as determined by Builder Magazine's list https://www.builderonline.com/builder-100/builder-100-list/2025/ accessed on June 6, 2025. Beazer Homes reports our average gross HERS score i.e. without including solar power savings. We don't know for sure if the other builders report their energy efficiency scores (HERS scores) with or without including solar power savings. Any registered or unregistered trademarks appearing here are the registered or unregistered trademarks of and are owned by their respective owners. All plans, specifications, features, materials and appliances are subject to availability, change or substitution deemed advisable by Beazer Homes or as required by local building code or law. This feature sheet does not represent all standard specifications in your home. Details listed may vary depending on the plan, elevation, and options chosen. Please consult your New Home Counselor for details. ©2026 Beazer Homes.
